Considerable excitement exists among the negroes on account of arrests made by the United States marshals. Negroes are armed and are threatening to attack the marshals. But there has been an improvement compared with the situation prior to the presidential election of 1896, and as contrasted with last January. Many of the larger merchants and manufacturers characterize the business record for the first half of 1897 as a disappointment in contrast with anticipations in December, 1896. On the other hand, confidence is widespread in a revival of demand this fall. Of the three great manufacturing industries, iron and steel, cottons and woolens, the first shows relatively the more improvement and woolens next, although tariff delays have taken the edge off the demand in that line and permitted importers to stock up with nearly two years' supplies. Cotton goods still suffer from cut prices, excessive competition and heavy production. There is a better demand for silks, milinery and confectionery, which, aside from the prosperity of the bicycle industry, constitute exceptions. Higher prices for leading cereals, for meats and Havana tobacco are noteworthy and reflect, respectively, unusually small supplies of wheat and the strength of the

TERMS OF SUBSCRIPTION. __:0-:--DAILY. WEEKLY. ne Year in Advanc

For Congressman Fourth District, MAJOR CHAS. W. LEE, Of Switzerland County.

Entered at the Seymour, Indiana, Postoffic as Second-class Matter.

THE papers over the district, as will be seen in another column speak most avorably of the candidacy of Charles W. Lee. He is an able man and extremely popular wherever he is known.

THE B. & O. S-W. railroad is prepar ing to make a stubborn fight against the improvement of St. Louis and Cincinnati avenue. While it is a matter for the courts to decide, the opinion prevails that the city will win and that the improvement will be made after some delay.

Dun's Report of business is full o encouragement. This is not a political report in any sense and its conclusions are reached from a purely business standpoint. For the past week the report says: There is no step backward in business, although the season of midsummer quiet is near. Improvement continues, gradual and prudently cau tious as before, although in many branches evident where no signs of it appeared a few weeks ago. Business men of the highest standing in all parts of the country, having gradually per ceived that the tide has begun to rise, are regulating their contracts and investments and their plans for the future with confidence quite unknown to them short time ago. Great changes before adjournment of congress are hardly to be expected, but removal of uncertainty is with reason expected to bring into operation buying force which have been restricted for

Can any statistician of American political history point out an adminis tration which has made more rapid progress in carrying out the pledges o the platform upon which it was elected than that of President McKinley? In the 19 weeks since his inauguration, he has called congress together and pro cured the framing of and practical completion of a tariff measure; has appointed a commission to treat with foreign nations for international bimetallism; has prepared the draft of a message to congress recommending a currency commission which will devise a plan for general currency reform; has redeemed the pledge of the platform with reference to the annexation of Hawaii, and is taking such steps in the Cuban matter as will soon make it apparent that he has been equally prompt and faithful in regard to this pledge of the

Sun Never Sets on Uncle Sam's Domains "The Britons proudly boast that the sun never sets on the Queen's domin ions, as if they were special subjects of solar favoritism," writes William Jordan on "The Greatest Nation on Earth, in the July Ladies' Home Journal. 'But it is equally true that there is always sunshine on same part of Uncle Sam's great possessions. When it is p. m. on Attoo's Island, Alaska, it is 9:36 a. m. of the day following at Eastport, Maine. If we locate the center of the United States, calculating it as midway between longitude sixty-seven of Eastport and longitude one hundred and ity and courage he was gradually proninety-three of Attoo's Island, it will be found on the one hundred and twentysixth degree of longitude, about two hundred and eighty miles west of San Francisco, in the Pacific Ocean."

Who He is and What Our Neighbors Say About Him.

A fine speciman of manhood; social eloquent, plain, earnest, and a good mixer is "Charlie" Lee, as he is famil arly known thoughout the district .-Greensburg Standard.

It is freely predicted that Major Lee will be able to carry his own county, Switzerland, where heretofore Mr. Griffith's friends have claimed a walkover. There is not a more magnetic man in the county than Lee, and none more so in the district.-Madison Cour

Major Lee is a Grand Army man, an old Third Cavalry man, a retired minister, and is at present farming at the old Lee homestead in Switzerland county. He is immensely popular with all classes of people, and promises to make a vigorous canvass, going into every county and every precinct of this district -North Vernon Republican.

The nomination of Charles W. Lee or congress by the republican convention will meet with approval throughout the district. He is a man upon whom all can unite, as a sound and true advocate of the best principles, a man of honor and truth who stands fearlessly against popocratic heresy and false doctrines as enumerated in their platform recently adopted. -Columbus Re-

A splendid start toward securing a republican representative from the Fourth district has been made in the party's standard bearer. He is just the man in every respect to make the race. He is popular with all classes and with the members of all parties; he always has a kind word and a warm hand clasp for every man and can campaign with up. the best of them.-Franklin Republi-

The nomination of Charles W. Lee by the republicans of the 4th congresnal district was an act of wisdom and fore sightedness. Mr. Lee is in every way fitted and qualified to make the race. He is a close student of the current history of our government. He is up to date on all the political issues of the day. He is a man of broad and liberal views, and at the same time a man of unimpeachable moral character. Intellectually he is the peer of any man in the district, and as a ready, convincing and eloquent speaker .-Batesvile Tribune.

Major Charles Warren Lee, the nomtrict for congress is a man of splendid physique, genial manner and a captivating speaker. He served three years and eight months in the war, enlisting as a private and coming out as a major. For years he was in the ministry of the M. E church, and has been stationed at various times at many points over the district, which gives him a wide equintance. Some time ago he retired rom the ministry, and at present is living on a farm in Switzerland county, near Vevay, the home of F. M. Griffith the democratic nominee. Mr. Lee is a ready talker and has always taken a great interest in politics and the affairs of the republican party. He will be heard in each county in the district before the campaign closes -Greensburg

Maj Charles Warren Lee is a native of Cotton township, Switzerland county, Ind. He was born on a farm about fifty six years ago, where he spent his boyhood days until the war commenced, when he enlisted as a private in Co A. 3d. Ind. Cavalry. Being a man of abilmoted until he attained the rank of

Washington, June 26.—Trouble has broken out afresh at Fort Gibson, I. T., where the Cherokee freedmen payment and destroyed. Under the name of hosington authorities have been appealed to for assistance in averting further disorders. News of the disturbance came officially in telegrams received by Secretary Biss, supplemented by similar advices received by the attorney general and the secretary of war. General Frank C. Armstrong of the Dawes commission, which was just leaving Fort Gibson when the troable occurred, joined with Indian Inspector McLaughlin, who is supervising the payment, in

wiring the following to Secretary Bliss:

Considerable excitement exists among he negroes on account of arrests made by he United States marshals. Negroes are armed and are threatening to attack the narshals. The troops here are able to cope with the situation and preserve peace. If the commander has not authority to patrol the town and to exercise control over the excited negroes, serious trouble may occur. The presence and action of the military this evening alone prevented bloodshed. The payment has progressed quietly, but those disturbances are outside the lines and are between the negroes and deputy marshals. Prompt and decided action is recommended, with authority to remove disorderly persons and disarm all except United States officials. The United States district attorney and United States marshal have wired the attorney

Another dispatch says the trouble is aused by deputy United States marhals executing the processes of the United States district court against cerain beneficiaries requiring them to pay their indebtedness to certain creditors after receiving their check and leaving the pay ground. Two shots were fired by some persons in the crowd, thought to have been directed at deputy marshals. One freedman was struck in the jaw with a rifle by a deputy marshal. Secretary Bliss forwarded the advices to the secretary of war for his action and wired the inspector that he had done so, and, reminding him that the troops were on the ground, stated that order must be maintained at all hazards. of \$100, deposited by D. This information was soon imparted to the crowd which became more infuriated and desperate than ever and vowed that Moses should die if all the soldiers in the state arrived to protect and numbered possibly 400.

The propitious moment arrived when a negro preacher asked permission to go into the jail to talk to Moses. He was allowed to enter and the crowd rushed in with him and before the sheriff realized what had been done a rope wa thrown around Moses neck and he was pulled from the enclosure, taken about a half mile from the depot and swung to a tree near where Jack Yarbrough was hanged some 18 months ago.

The mob then hunted up the preacher who had sworn Moses was at his house when the murder was committed and gave him and another negro a severe whipping because they swore to lies to shield Moses,

Moses' wife refused to have anything to do with the body of her husband, saying that she knew he was guilty of murder, and would never look upon his face again. The crowd quietly dispersed. SIX-ROUND CONTEST.

TRADE CONDITIONS. Persistent Misrepresentations Have Been

Made as to Improvement. NEW YORK, June 26 .- Bradstreets today says: The persistent misrepresentation of the actual state of trade throughout the country during the past month in an apparent endeavor to make the prospective improvement in business appear to be its present condition, demands an examination as to the facts and Bradstreets presents condensed results of interviews with representative manufacturers and merchants at more than 50 important commercial and industrial centers east of the Rocky mountains. The demand, except in few lines, is less pronounced than it was two months ago.

There is no material increase in the volume distributed compared with a year ago, and prices for many staples are lower. But there has been an improvement compared with the situation prior to the presidential election of 1896, and as contrasted with last January. Many of the larger merchants and manufacturers characterize the business record for the first half of 1897 as a disappointment in contrast with anticipations in December, 1896. On the other hand, confidence is widespread in a revival of demand this fall. Of the three great manufacturing industries, iron and steel, cottons NICHOLASVILLE, Ky., June 26.—A fire and woolens, the first shows relatively the more improvement and woolens broke out in several different places in Spark's building opposite the Hotel next, although tariff delays have taken the edge off the demand in that line and Nicholas yesterday. For Congressman Fourth District, MAJOR CHAS. W. LEE, Of Switzerland County.

THE papers over the district, as will be seen in another column speak most avorably of the candidacy of Charles W. Lee. He is an able man and extremely popular wherever he is known.

THE B. & O. S-W. railroad is preparing to make a stubborn fight against the improvement of St. Louis and Cincinnati avenue. While it is a matter for the courts to decide, the opinion prevails that the city will win and that the improvement will be made after some delay.

Dun's Report of business is full of encouragement. This is not a political report in any sense and its conclusions are reached from a purely business standpoint. For the past week the report says: There is no step backward in business, although the season of midsummer quiet is near. Improvement continues, gradual and prudently cau tious as before, although in many branches evident where no signs of it appeared a few weeks ago. Business men of the highest standing in all parts of the country, having gradually perceived that the tide has begun to rise, are regulating their contracts and investments and their plans for the future with confidence quite unknown to them short time ago. Great changes before adjournment of congress are hardly to be expected, but removal of bring into operation buying forces which have been restricted for

Can any statistician of American political history point out an administration which has made more rapid progress in carrying out the pledges of the platform upon which it was elected than that of President McKinley? In the 19 weeks since his inauguration, he has called congress together and pro. cured the framing of and practical completion of a tariff measure; has appointed a commission to treat with foreign nations for international bimetallism; has prepared the draft of a message to congress recommending a currency commission which will devise a plan for general currency reform; has redeemed the pledge of the platform with reference to the annexation of Hawaii, and is taking such steps in the Cuban matter as will soon make it apparent that he has been equally prompt and faithful in regard to this pledge of the platform.

Sun Never Sets on Uncle Sam's Domains "The Britons proudly boast that the sun never sets on the Queen's dominions, as if they were special subjects of solar favoritism," writes William Jordan on "The Greatest Nation on Earth," in the July Ladies' Home Journal. But it is equally true that there is always sunshine on same part of Uncle Sam's great possessions. When it is p. m. on Attoo's Island, Alaska, it is 9:36 a. m. of the day following at Eastport, Maine. If we locate the center of the United States, calculating it as midway between longitude sixty-seven of Eastport and longitude one hundred and ninety-three of Attoo's Island, it will be found on the one hundred and twentysixth degree of longitude, about two hundred and eighty miles west of San Francisco, in the Pacific Ocean."

A fine speciman of manhood; social eloquent, plain, earnest, and a good mixer is "Charlie" Lee, as he is famil arly known thoughout the district .-Greensburg Standard.

It is freely predicted that Major Lee will be able to carry his own county, Switzerland, where heretofore Mr. Griffith's friends have claimed a walk over. There is not a more magnetic man in the county than Lee, and none more so in the district.-Madison Cour-

Major Lee is a Grand Army man, an old Third Cavalry man, a retired minister, and is at present farming at the old Lee homestead in Switzerland ounty. He is immensely popular with all classes of people, and promises o make a vigorous canvass, going into every county and every precinct of this district - North Vernon Republican.

The nomination of Charles W. Lee or congress by the republican convenion will meet with approval throughout the district. He is a man upon whom all can unite, as a sound and true advocate of the best principles, a man of honor and truth who stands fearlessly against popocratic heresy and false octrines as enumerated in their platorm recently adopted. - Columbus Re-

A splendid start toward securing a republican representative from the Fourth district has been made in the nomination of Rev. Chas. W. Lee as the party's standard bearer. He is just the man in every respect to make the race. He is popular with all classes and with the members of all parties; he always has a kind word and a warm hand clasp for every man and can campaign with the best of them.-Franklin Republi-

The nomination of Charles W. Lee by the republicans of the 4th congresional district was an act of wisdom and ore sightedness. Mr. Lee is in every way fitted and qualified to make the ace. He is a close student of the current history of our government. He is up to date on all the political issues of the day. He is a man of broad and liberal views, and at the same time man of unimpeachable moral character. Intellectually he is the peer of any man in the district, and as a ready, convincing and eloquent speaker .-Batesvile Tribune.
